## Removal Of Use Of The Road For Hospitality - 11 October 2022 -

Another blow to the hospitality sector with news that any use of the road for hospitality outside of some permitted areas will come to an end on 11 October 2022. This means that the money you have spent making your outdoor area safe will now be lost, even though off sales has been extended until 30 September 2023.

We are pushing Bristol City Council hard on this but to be fair it's a national policy so changes need to come from Westminster. That being said, a bit of discretion would be welcomed.

Permitted areas include Old City, King St, Cotham Hill and Princess Victoria Street - just the closed off bit so the 3 venues just past it will need to remove their decking and huts. If this is going to cause you issues contact [brendan@barbiebristol.com](mailto:brendan@barbiebristol.com) or call 07876 735153

## INFLATION & THE IMPACT ON YOUR POLICY

Inflation is having a significant impact on all areas of life and posing challenges for businesses of all shapes and sizes.

Whilst many things might be out of your control, your sums insured is something you can update along with inflation to make sure you don't lose out if you need to make a claim.

As material and labour costs rise, so does your sums insured. If your last valuation was months or even years ago, it might not meet the current value of your buildings and contents.

It's important to have an accurate sums insured, as if you are underinsured, insurers may reduce settlement amounts if you need to make a claim.
